

Quick start

```
class Circle
{
public:
    Circle() : x0(0.0), y0(0.0), radius(1.0) {}
    Circle(double x, double y, double radius) : x0(x), y0(y), radius(radius) {}

private:
    double x0;
    double y0;
    double radius;
}
```
